

1-If we add attributes like Anti and DLO, they will not appear for the assets that are already in the system.

For example, Asset 1 has all specs except DLO and Anti on the edit page and view Page Later, if I add DLO and Anti, they will not appear for the old assets.

Notes

2-We must enter a received date so that it will be shown as assigned. If I don't enter a received date, it will appear as unassigned, even though it is actually assigned.

3-The sorting of the attributes makes data entry uncomfortable for the client, and it looks messy. At the very least, related attributes (e.g., HDD and SSD) should appear next to each other.

(Anti, Core, DLO, Gen, HDD, Model, Monitor, RAM, SSD, Win) doing it alphabetically in code

Should mange the sort from here like drag and drop .

Add Attribute

Attribute name e.g. RAM

Text

☐ Required

Add

Attributes				
# ↑	Name ↓	Type ↓	Req ↓	Action
1	Core	Text	No	<div>EditDelete</div>
2	RAM	Text	No	<div>EditDelete</div>
3	HDD	Text	No	<div>EditDelete</div>
4	SSD	Text	No	<div>EditDelete</div>
5	Gen	Text	No	<div>EditDelete</div>
6	Win	Text	No	<div>EditDelete</div>
7	Model	Text	No	<div>EditDelete</div>
8	Anti	Boolean	No	<div>EditDelete</div>
9	DLO	Boolean	No	<div>EditDelete</div>

5-if Asset is shared among the employees for example Printer. Didn't handle this case

6-There is a export file in the project already not important I was testing a something in it you can delete it

7-In this section, if there is an employee named Youssef Ali and another employee with the same name, the system cannot differentiate between them. This issue must be solved.

solution

Solution: The name should appear as “Youssef Ali (ID: 123)” or with his department.
